

**Class Tamar**

**PSHE**

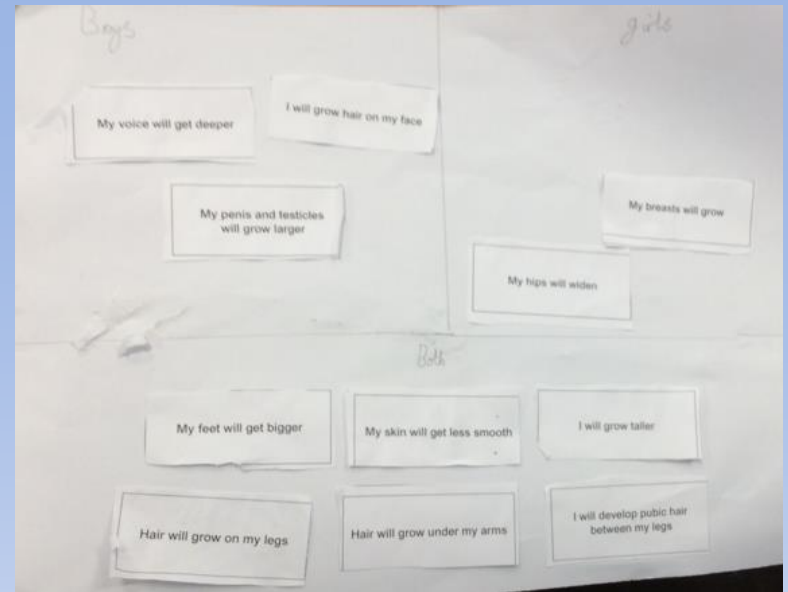

**Changing Me**

We learnt that in animals and humans lots of changes happen between conception and growing up, and that usually it is the female who has the baby.

We learnt how babies grow and develop on the others uterus and reflected on what babies need to survive.

We learnt about the differences between how boys and girls bodies need to change so that when we grow up our bodies can make babies.

We spent some time reflecting on what we are looking forward to and what we are worried about when growing up.
