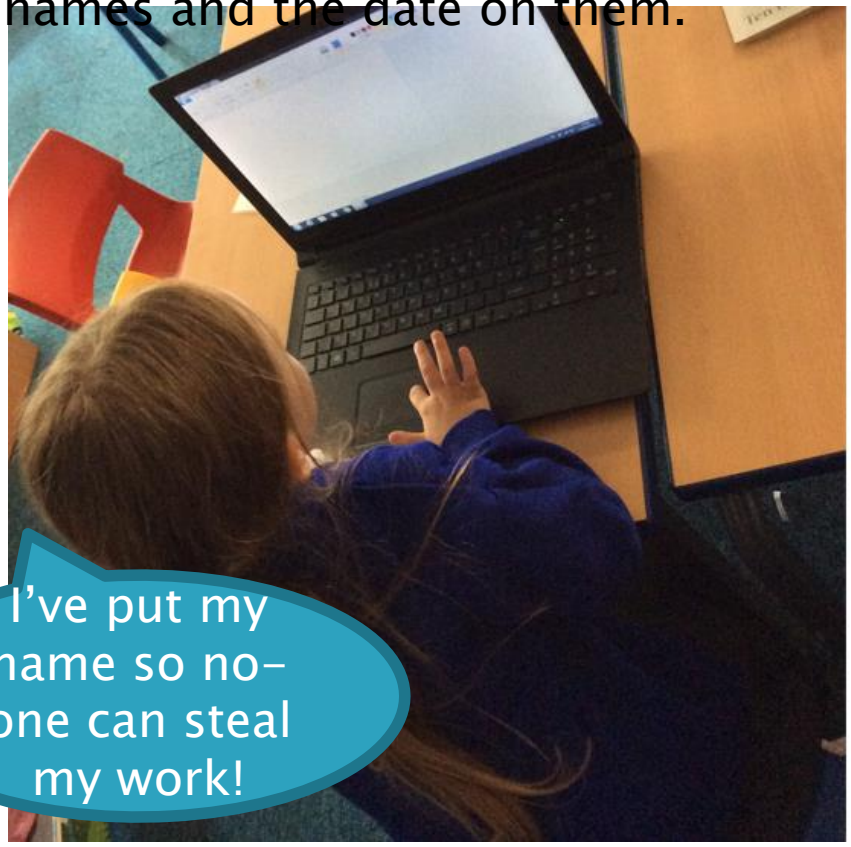
Computing

Internet safety

Taking ownership of our work

We talked about how we need to put our names and date on our pieces of work so that other people can't copy them! We had a go at creating self-portraits on the laptop on the Paint app and then types our names and the date on them.

How do I find the number for the date?



I've put my name so no-one can steal my work!

Searching for images safely

Google is a place we can search for things

I can use Safe Search Kids to find pictures safely.

Being SMART online.

We looked at 'Creepy Croc' who sent messages to other animals in the zoo asking to meet them… We must never:

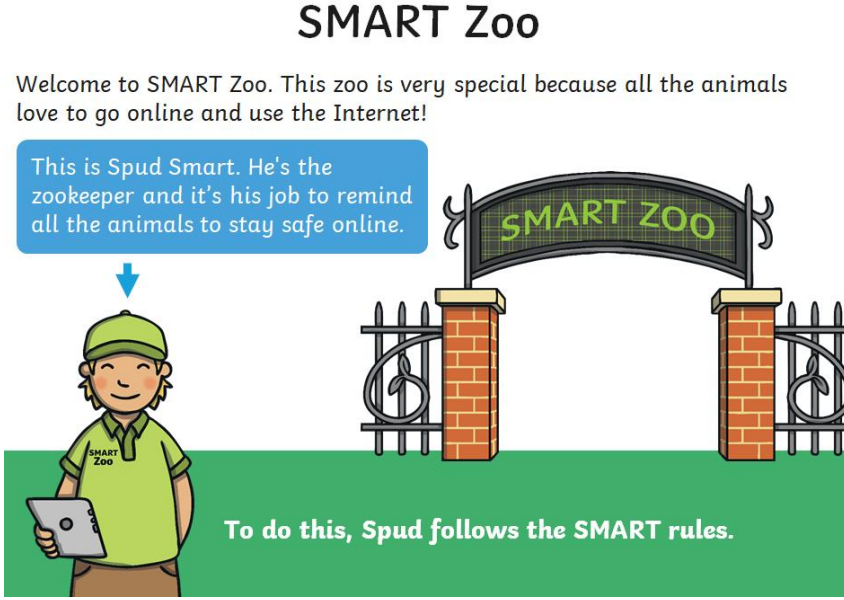
Safe – Keep out information such as name and age and location private.

Meet– never meet people we don't know or have only spoken to online.

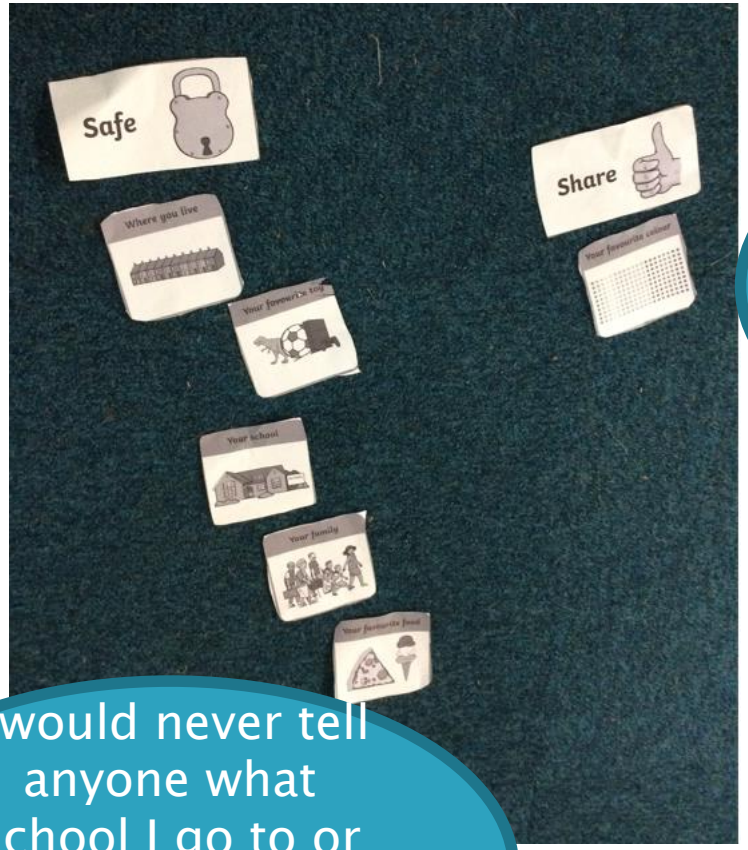
Accept –Never accept or clink on any links, always have a grown-up with you to say if it's okay or not.

Reliable – Not every thing you read on the internet is reliable or true.

Tell – If anything bother's you online, tell a grown-up or trusted person.



What personal information is safe to share with strangers or people that we don't know very well?

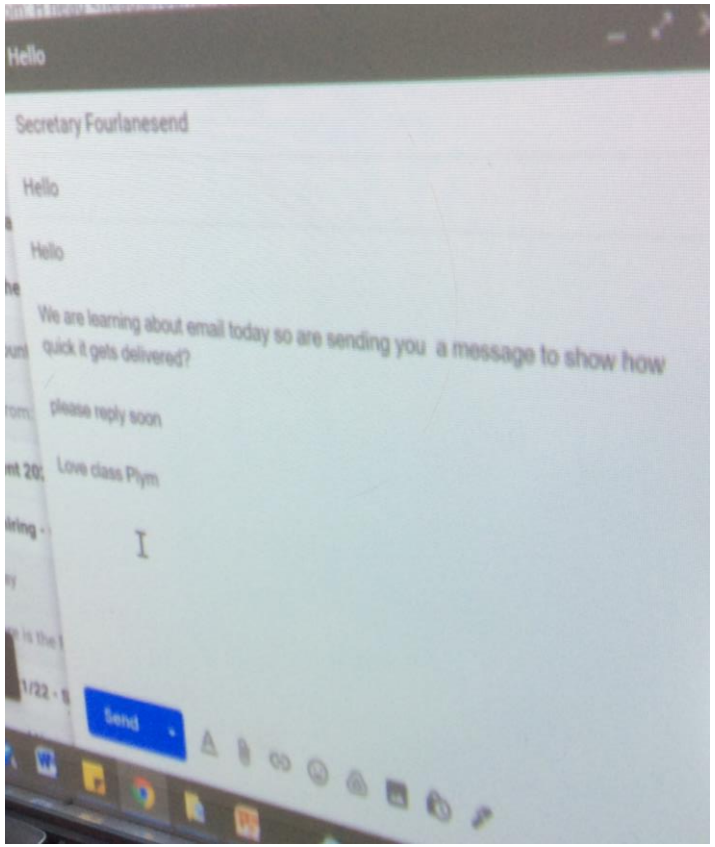


We shouldn't tell people what our favourite toy is because they could buy the oy and try to get you to speak to them or meet them with the toy you like.

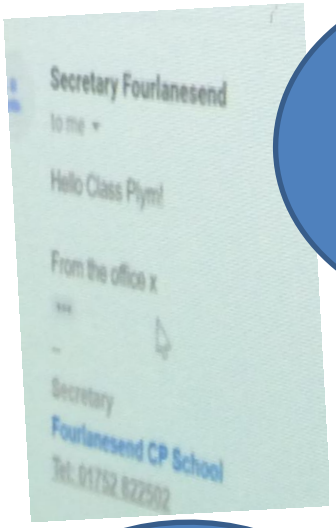
I would never tell anyone what school I go to or they might try to pick me up at the end of the day!

Don't tell people where you live or they might come to your house

Email!

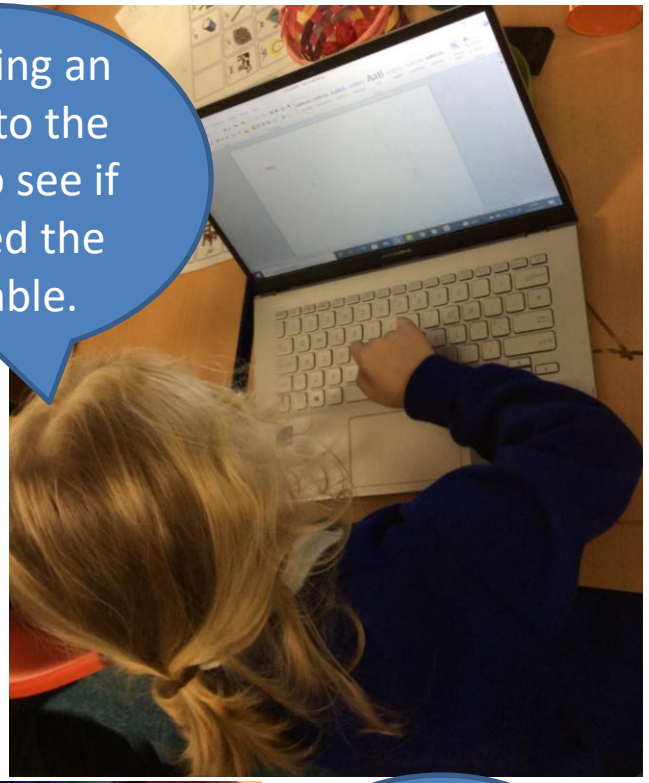


We Emailed Mrs Blackler in the office to see how quickly she would reply.



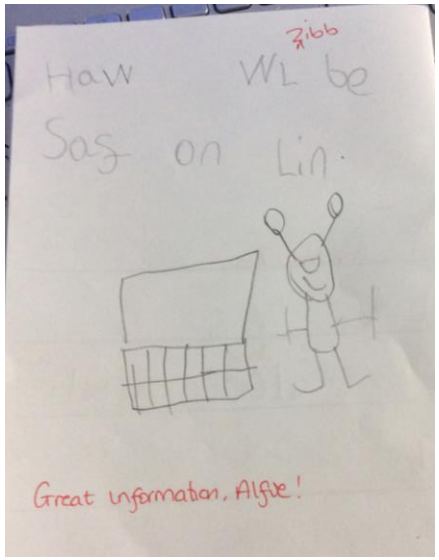
She replied so fast!

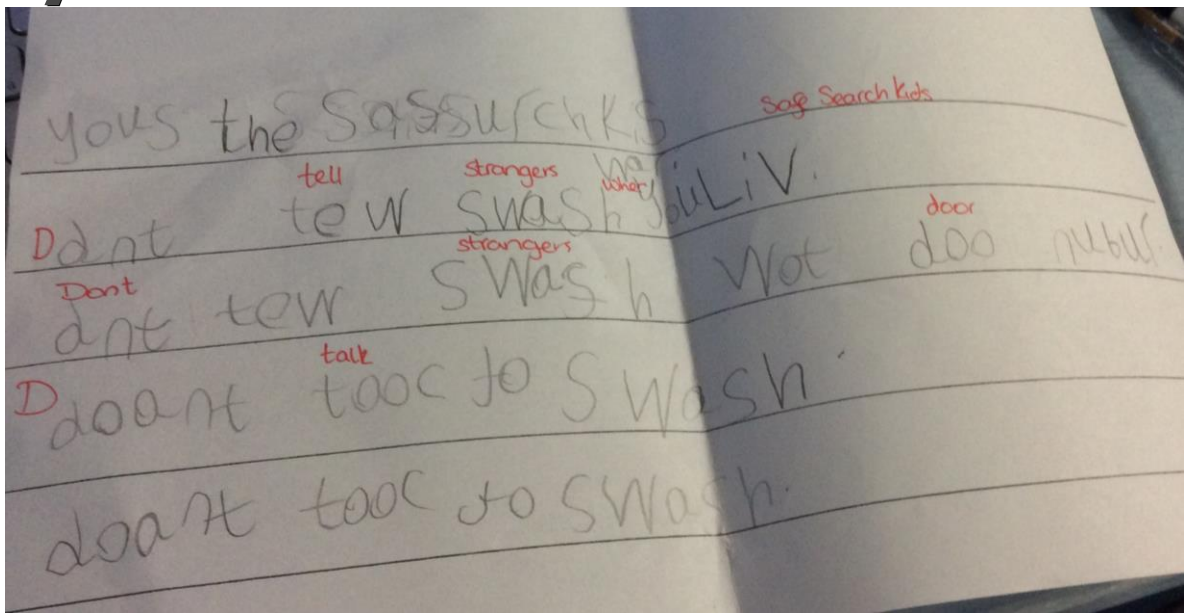
I'm doing an email to the bear to see if he liked the crumble.

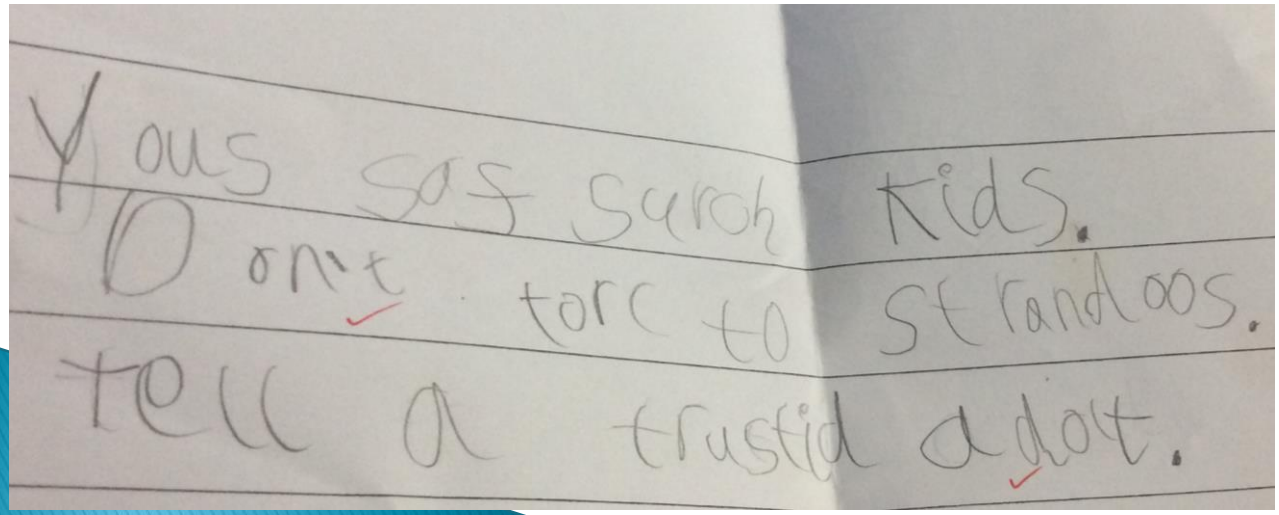


Don't tell people where you live on an Email

Information for alien Zibb on how to stay safe online







Computing — FLE Y1/2 — Internet Safety

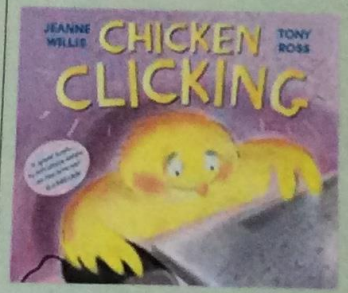
A flipbook from zibb about how to stay safe on the

What we already know: Not to talk to strangers. Put your name on your work. Don't go online without an adult. Check with an adult if you're not sure.

Knowledge

- Anything that you create is yours and belongs to you.
- Some search engines have filters that make them safer for you to use.
- You should speak to a trusted adult if you see, hear or read anything online that upsets you.
- You shouldn't' go on things online that are not suitable for your age.
- If you don't save your work, you will lose it.
- Always remember to put your name and date on your work so that everyone knows that it is yours and cannot copy it.
- Never click on links without an adult saying that it is okay to do so.
- You shouldn't ever talk to people on the internet without an adult being with you.
- You shouldn't ever share personal information with strangers on the internet.

Exciting Books



Culture Capital

Having a fascination about learning about the world around us
The ability to recognize the difference between right and wrong.
Acceptance and engagement with the rule of law.
