

PSHE

DREAMS AND GOALS

What am I successful at?

I am good at: running, using the iPad, sharing, helping baby Jack, tennis, a little bit of everything, basketball.

How did we get good and successful?

We discussed how to get good and successful at something, we had to learn how to do it and take 'steps'. Before running you must learn to stand and walk and then jog slowly. We had to give Miss G instructions to make a sandwich to show that it was a process to build up to a final product.

I had to watch and practice to get good at drawing, I used to just scribble.

I got good at basketball by practicing

A shared goal – achieving a shared goal

We both like stars so let's add stars!

We had a challenge to work with a partner to design a pair of wellies but we had to communicate with each other and make sure we only add things that we both agree on.

I don't like yellow, so we can't have yellow.

What if I am with someone who doesn't like speed boats? Then I can't have speed boats

Tackling a new challenge to stretch my learning

Ohhh! I accidentally cut one of my fingers off. I'll have to do another one.

What animals are stretchy?

Caterpillar,
Snake, worm, giraffe, elephant, butterfly,
slug, dog, cat and eel.

I can follow instructions to stretch my brain and learn new things.

Can you help me get some tape off please to attach my straw?

Overcoming obstacles in our learning

He could jump over the hand wash. He could go around the helmet and he could use the metal handle to swing over the sick bucket.

Obstacles we might face when learning to read

If someone is embarrassed they got a word wrong we can say good job for having a try.

Our solutions to overcome the obstacles!

If someone can't concentrate from the noise we can ask everyone to use their inside voices.
