## PE FLE YRR Can I use all of my new skills in a game?

## What I have learnt before:

- -We need to warm up before exercise to protect our body. -We can hold out our arms to help us balance.
- -Looking at a point ahead can help us to balance.

Forever Facts	Exciting	Subject Specific Vocabulary	
If my chin is up and my eyes are looking straight ahead it will be easier to balance a beanbag on my head.	Books SPORTS DAY	Directions	The path that something travels or points: left, right, up, down.
Using my arms effectively can help me to jump higher and a greater distance.	Citch Entrervorth and Mick Inkpen	Strides	To walk or run taking long, even steps.
When I breathe heavier during exercise, it is my body taking in more oxygen.	MR. MEN SPORTS DAY	Speed	How fast or slow something is moving.
When I land a jump, I must bend my legs to protect my body.		Balance	Being steady; not wobbling or
Skills			falling over.
I can move my body slowly and faster with control. I can balance a beanbag on my head whilst moving forwards slowly. I can talk about what happens to my body during exercise.	Personal Development -To know that exercise is important for our body to keep us healthy. -Working collaboratively with	Obstacles	Something in your way that stops you moving forwards – you may need to jump over it or crawl under it for example.
<b>Endpoint</b> : I can apply my new skills to a game situation.	others in partners and a team.
