

# Art Cremyll Y1/2 Summer 1 2024 How can we transform the materials around us into sculpture? ?

## What I have learnt before:

- How Joan Miro worked as a sculpture.
- Made sculptures from clay.
- Art is a way you can express how you are feeling.

## Forever Facts:

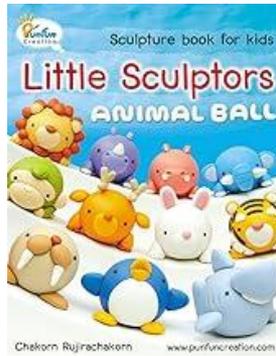

Sculpture is visual 3D art.

Sculptures can be constructed using every day materials.

Materials that are used for art sculptures have different properties that can be used for different purposes.

## Skills:

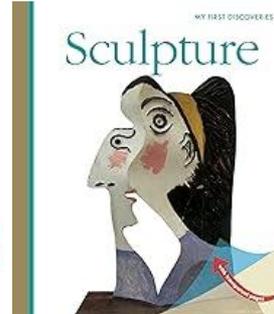

- I can appraise my work and the work of others.
- I can design my own sculpture.
- I can manipulate materials to create an effect.
- I can use my imagination.
- I can use a variety of tools to create my sculpture.

## Look! Look! Look! at Sculpture

## Exciting Books

Our Endpoint

To sculpt/create a medal.

## Personal Development

- Jobs it can be used for: sculptor, artist, potter or architect.
- Critique of my own sculpture and those of others.
