

What I have learnt before:

I know how to keep myself safe when I'm outdoors.
I know how to look after and respect my environment.

**Forever Facts**

To use a palm drill successfully I must rotate the drill clockwise to go down and anti-clockwise to come back.

In order to cut with a saw safely I must make a groove by pulling the saw back three times.

A fire needs heat, fuel and oxygen to stay alive!

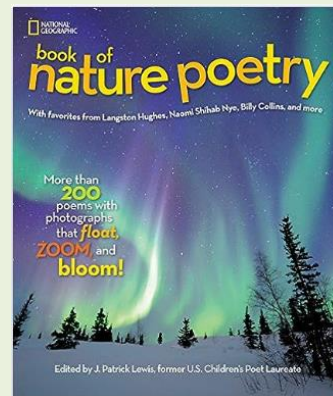

Skills

Explain and apply basic safety principles.

Comment on the skills and techniques used in their own and others' work.

Understand the importance of rules and fairness.

Follow rules in games.

Exciting Books**Our Endpoint**

To use the tools and skills safely with confidence to complete Wild Tribe!

Subject Specific Vocabulary

heat, fuel
& oxygen

The three things that a fire needs.

saw

A hand tool for cutting wood or other hard materials, typically with a long, thin serrated blade and operated using a backwards and forwards movement.

Palm drill

A palm drill is a hand-held drill that is held in the palm.

hammer

a tool with a heavy metal head, used for jobs such as breaking things and driving in nails.

Personal development: develop a love of their environment and being outdoor whilst keeping ourselves and others safe. Increase self-confidence, creativity and sense of achievement. Jobs it may lead to are: bushcraft expert, outdoor instructor, wild tribe leader!
