

I love a good plot like Macbeth.

Our table love to read the newspapers because the puzzles are fun and they make us look like sophisticated members of the school.

We all love to read newspapers in this class and solve the puzzles as a team.

We all love to read the news and know what's happening in the world.

It is really useful to have a class library because if you have a class library you don't need to walk to the other side of the school.

Every class has its own mini library. In our library we have every different genre. This means you don't have to stick to the same ones and read different types of books.

We can read when we have finished our work, finished lessons, at the start of the day and if we have any free time.

We read in the morning when the register is being done. We read in the afternoon and at home.

We read when we come in to school and when we're sat down.

The reading assistants help the children to read and make sure they actually process what you are reading. When you go to read they ask you to recap the book so then they know that you have been taking in what you have read.

The reading assistants help you understand words if you don't know what they mean.

The class book can give us ideas of what we might want to read and help children who don't like reading to like reading.

Different genres teach you different knowledge you wouldn't get with only one type of book.

Different genres can give you different feelings. Some can make you scared or sad, some can make you happy excited and joyful. Other books in the middle can make you both sad and happy.

My favourite genre is Japanese Manga because it is art style and I like the comic style format.

My favourite book is Gangsta Granny by David Walliams because it is funny and adventurous.

I like magical books because they have magical, mystical creatures and can be scary and exciting.

My favourite book is Harry Potter and the Deathly Hallows by J K Rowling because it has a really good storyline and is exciting.

My favourite book is Charlie and the Chocolate Factory by Roald Dahl.

My favourite is The Beast of Buckingham Palace by David Walliams. It is very exciting.

My favourite book is Eagle of the Ninth by Rosemary Sutcliffe because it is exciting and set in the Roman times.

Reading is important because it helps you with everything like reading texts and maths problems.

The school library has a lot of books from big to small. The fiction books are in alphabetical order. The non-fiction books follow the Dewey system.

The books in the school library are sorted into genres so if you are looking for a certain type you know exactly where to look.

When someone is reading out aloud in assembly it helps other people learn too.

When you are reading in assembly, when you pronounce a tricky word it helps others to know how to say it.
