

Cremyll Class

Summer 1: 2022

ART: CLAY TILES

Exploring and manipulating clay

I can pinch the clay to make it spikey.

I can use my fingers to poke the clay to make it bumpy.

I can use a tool to etch the clay to create a pattern.

Designing

I can use different tools to draw my picture in the tile.

I can create a tile to show summer. I like to go to the beach in the summer.

I can use different tools to draw my picture in the tile.

Making our tiles.

I can use my hands and tools to create my clay design.

If the clay starts to feel dry I can sprinkle on water so it is better to use.

What we already know:

- EYFS explore playdoh in their continuous provision and using a variety of tools.
- In the Autumn term we did a Miro unit where the children created a clay sculpture as their end point.

**Our Endpoint**

A designed and decorated clay tile with a Spring theme.

Forever Facts

I know that clay needs to be warmed up to make it easier to manipulate.

I know that some clay needs to be left in the air to dry and some needs to be put into an 'oven' (kiln).

I know that my hands can be used as a tool for making.

Skills

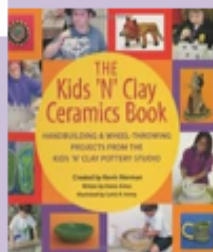

I can use a range of materials / processes to show ideas / meanings.

I can select the best materials for the job.

Culture Capital

-Giving and receiving constructive criticism on our designs and products.

-Learning about *how* things are created - you may want to work with pottery or building in the future.

Exciting books**Subject Specific Vocabulary**

Clay	A fine-grained mineral formed when rocks break down.
Tools	An instrument (such as a knife, saw etc) used to perform a task.
Manipulate	To use or move something using your hands or tools.
Score	To use a tool to draw into the clay to make an image.
Design	To draw and create a plan that can be followed.
