

Fourlanesend Personal Data Handling Policy

School Personal Data Handling Policy

Introduction

Schools and their employees should do everything within their power to ensure the safety and security of any material of a personal or sensitive nature

It is the responsibility of all members of the school community to take care when handling, using or transferring personal data that it cannot be accessed by anyone who does not:

- have permission to access that data, and/or
- need to have access to that data.

Data breaches can have serious effects on individuals and / or institutions concerned, can bring the school into disrepute and may well result in disciplinary action, criminal prosecution and fines imposed by the Information Commissioners Office - for the school and the individuals involved. Particularly, all transfer of data is subject to risk of loss or contamination.

Anyone who has access to personal data must know, understand and adhere to this policy, which brings together the legal requirements contained in relevant data protection legislation and relevant regulations and guidance (where relevant from the Local Authority).

Policy Statements

The school will hold the minimum personal data necessary to enable it to perform its function and it will not hold it for longer than necessary for the purposes it was collected for.

Every effort will be made to ensure that data held is accurate, up to date and that inaccuracies are corrected without unnecessary delay.

All personal data will be fairly obtained in accordance with the "Privacy Notice" and lawfully processed in accordance with the "Conditions for Processing".

Personal Data

The school and individuals will have access to a wide range of personal information and data. The data may be held in a digital format or on paper records. Personal data is defined as any combination of data items that identifies an individual and provides specific information about them, their families or circumstances. This will include:

- Personal information about members of the school community – including *pupils*, members of staff and parents / carers e.g. names, addresses, contact details, legal guardianship contact details, health records, disciplinary records
- Curricular / academic data e.g. class lists, pupil / student progress records, reports, references
- Professional records e.g. employment history, taxation and national insurance records, appraisal records and references
- Any other information that might be disclosed by parents / carers or by other agencies working with families or staff members.

Responsibilities

The school's Senior Information Risk Officer (SIRO) is the *Data Protection Officer – Rebecca Norton*. This person will keep up to date with current legislation and guidance and will:

- determine and take responsibility for the school's information risk policy and risk assessment
- appoint the Information Asset Owners (IAOs)

The school will identify Information Asset Owners (IAOs) *for the various types of data* being held (e.g. pupil / student information / staff information / assessment data etc.). The IAOs will manage and address risks to the information and will understand:

- what information is held, for how long and for what purpose,
- how information has been amended or added to over time, and
- who has access to protected data and why.

Everyone in the school has the responsibility of handling protected or sensitive data in a safe and secure manner.

Governors are required to comply fully with this policy in the event that they have access to personal data, when engaged in their role as a Governor.

Registration

The school is registered as a Data Controller on the Data Protection Register held by the Information Commissioner.

Information to Parents / Carers – the “Privacy Notice”

In order to comply with the fair processing requirements of the DPA, the school will inform parents / carers of all pupils / students of the data they collect, process and hold on the pupils / students, the purposes for which the data is held and the third parties (eg LA, DfE, etc) to whom it may be passed. This privacy notice will be passed to parents / carers through

a specific every September. Parents / carers of young people who are new to the school will be provided with the privacy notice through the office.

Training & awareness

All staff will receive data handling awareness / data protection training and will be made aware of their responsibilities, as described in this policy through: documentation given that needs to be signed to say that it is read and understood. Induction training for new staff

- Staff meetings / briefings / Inset
- Day to day support and guidance from Rebecca Norton

Risk Assessments

Information risk assessments will be carried out by Information Asset Owners to establish the security measures already in place and whether they are the most appropriate and cost effective. The risk assessment will involve:

- Recognising the risks that are present;
- Judging the level of the risks (both the likelihood and consequences); and
- Prioritising the risks.

Risk assessments are an ongoing process and should result in the completion of an Information Risk Actions Form (example below):

Risk ID	Information Asset affected	Information Asset Owner	Protective Marking (Impact Level)	Likelihood	Overall risk level (low, medium, high)	Action(s) to minimise risk

Impact Levels and protective marking

Government Protective Marking Scheme label	Impact Level (IL)	Applies to schools?
Not Protectively Marked	0	Will apply in schools
Protect	1 or 2	
Restricted	3	
Confidential	4	Will not apply in schools
Highly Confidential	5	
Top Secret	6	

The school will ensure that all school staff, independent contractors working for it, and delivery partners, comply with restrictions applying to the access to, handling and storage of data classified as Protect, Restricted or higher. Unmarked material is considered 'unclassified'. The term 'UNCLASSIFIED' or 'NON' or 'NOT PROTECTIVELY MARKED' may be used to indicate positively that a protective marking is not needed.

All documents (manual or digital) that contain protected or restricted data will be labelled clearly with the Impact Level shown in the header and the Release and Destruction classification in the footer.

Users must be aware that when data is aggregated the subsequent impact level may be higher than the individual impact levels of the original data. Combining more and more individual data elements together in a report or data view increases the impact of a breach. A breach that puts students / pupils at serious risk of harm will have a higher impact than a risk that puts them at low risk of harm. Long-term significant damage to anyone's reputation has a higher impact than damage that might cause short-term embarrassment.

Release and destruction markings should be shown in the footer e.g.. "Securely delete or shred this information when you have finished using it".

Secure Storage of and access to data

The school will ensure that systems are set up so that the existence of protected files is hidden from unauthorised users and that users will be assigned a clearance that will determine which files are accessible to them. Access to protected data will be controlled according to the role of the user. Members of staff will not, as a matter of course, be granted access to the whole management information system.

All users will use strong passwords which must be changed regularly. User passwords must never be shared.

Personal data may only be accessed on machines that are securely password protected. Any device that can be used to access data must be locked if left (even for very short periods) and set to auto lock if not used for five minutes.

All storage media must be stored in an appropriately secure and safe environment that avoids physical risk, loss or electronic degradation.

Personal data can only be stored on school equipment (this includes computers and portable storage media. Private equipment (i.e. owned by the users) must not be used for the storage of personal data.

When personal data is stored on any portable computer system, USB stick or any other removable media:

- the data must be encrypted and password protected,
- the device must be password protected
- the device must offer approved virus and malware checking software and
- the data must be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete.

Fourlanesend has clear policy and procedures for the automatic backing up, accessing and restoring all data held on school systems, including off-site backups.

Fourlanesend has clear policy and procedures for the use of “Cloud Based Storage Systems” (for example dropbox, Microsoft 365, google apps and google docs) and is aware that data held in remote and cloud storage is still required to be protected in line with the Data Protection Act. The school will ensure that it is satisfied with controls put in place by remote / cloud based data services providers to protect the data.

As a Data Controller, Fourlanesend is responsible for the security of any data passed to a “third party”. Data Protection clauses will be included in all contracts where data is likely to be passed to a third party.

All paper based Protected and Restricted (or higher) material must be held in lockable storage, whether on or off site.

Fourlanesend recognises that under Section 7 of the DPA, <http://www.legislation.gov.uk/ukpga/1998/29/section/7> data subjects have a number of rights in connection with their personal data, the main one being the right of access. Procedures are in place to deal with Subject Access Requests i.e. a written request to see all or a part of the personal data held by the data controller in connection with the data subject. Data subjects have the right to know: if the data controller holds personal data about them; a description of that data; the purpose for which the data is processed; the sources of that data; to whom the data may be disclosed; and a copy of all the personal data that is held about them. Under certain circumstances the data subject can also exercise rights in connection with the rectification; blocking; erasure and destruction of data.

Secure transfer of data and access out of school

The school recognises that personal data may be accessed by users out of school, or transferred to the LA or other agencies. In these circumstances:

- Users may not remove or copy sensitive or restricted or protected personal data from the school or authorised premises without permission and unless the media is encrypted and password protected and is transported securely for storage in a secure location.
- Users must take particular care that computers or removable devices which contain personal data must not be accessed by other users (eg family members) when out of school

- When restricted or protected personal data is required by an authorised user from outside the organisation's premises (for example, by a member of staff to work from their home), they should preferably have secure remote access to the management information system or learning platform;
- If secure remote access is not possible, users must only remove or copy personal or sensitive data from the organisation or authorised premises if the storage media, portable or mobile device is encrypted and is transported securely for storage in a secure location;
- Users must protect all portable and mobile devices, including media, used to store and transmit personal information using approved encryption software; and
- Particular care should be taken if data is taken or transferred to another country, particularly outside Europe, and advice should be taken from the local authority (if relevant) in this event.

Disposal of data

The school will comply with the requirements for the safe destruction of personal data when it is no longer required.

The disposal of personal data, in either paper or electronic form, must be conducted in a way that makes reconstruction highly unlikely. Electronic files must be securely overwritten, in accordance with government guidance ([see earlier section for reference to the Cabinet Office guidance](#)), and other media must be shredded, incinerated or otherwise disintegrated for data.

A Destruction Log should be kept of all data that is disposed of. The log should include the document ID, classification, date of destruction, method and authorisation.

Audit Logging / Reporting / Incident Handling

It is good practice, as recommended in the "Data Handling Procedures in Government" document that the activities of data users, in respect of electronically held personal data, will be logged and these logs will be monitored by responsible individuals – Rebecca Norton and Data Protection Governor.

The audit logs will be kept to provide evidence of accidental or deliberate_data security breaches – including loss of protected data or breaches of an acceptable use policy, for example.

The school has a policy for reporting, managing and recovering from information risk incidents, which establishes:

- a "responsible person" for each incident;
- a communications plan, including escalation procedures;
- and results in a plan of action for rapid resolution; and

- a plan of action of non-recurrence and further awareness raising.

All significant data protection incidents must be reported through the SIRO to the Information Commissioner's Office based upon the local incident handling policy and communication plan.

Use of technologies and Protective Marking

The following provides a useful guide:

	The information	The technology	Notes on Protect Markings (Impact Level)
School life and events	School terms, holidays, training days, the curriculum, extra-curricular activities, events, displays of pupils work, lunchtime menus, extended services, parent consultation events	Common practice is to use publically accessible technology such as school websites or portal, emailed newsletters, subscription text services	Most of this information will fall into the NOT PROTECTIVELY MARKED (Impact Level 0) category.
Learning and achievement	Individual pupil / student academic, social and behavioural achievements, progress with learning, learning behaviour, how parents can support their child's learning, assessments, attainment, attendance, individual and personalised curriculum and educational needs.	Typically schools will make information available by parents logging on to a system that provides them with appropriately secure access, such as a Learning Platform or portal, or by communication to a personal device or email account belonging to the parent.	Most of this information will fall into the PROTECT (Impact Level 2) category. There may be students/pupils whose personal data requires a RESTRICTED marking (Impact Level 3) or higher. For example, the home address of a child at risk. In this case, the school may decide not to make this pupil / student record available in this way.

Messages and alerts	Attendance, behavioural, achievement, sickness, school closure, transport arrangements, and other information that it may be important to inform or contact a parent about as soon as possible. This may be particularly important when it is necessary to contact a parent concerning information that may be considered too sensitive to make available using other online means.	Email and text messaging are commonly used by schools to contact and keep parents informed. Where parents are frequently accessing information online then systems e.g. Learning Platforms or portals, might be used to alert parents to issues via “dashboards” of information, or be used to provide further detail and context.	Most of this information will fall into the PROTECT (Impact Level 1) category. However, since it is not practical to encrypt email or text messages to parents, schools should not send detailed personally identifiable information. General, anonymous alerts about schools closures or transport arrangements would fall into the NOT PROTECTIVELY MARKED (Impact Level 0) category.
----------------------------	---	--	---

Appendices: Additional issues / documents related to Personal Data Handling in Schools:

Use of Cloud Services

Many schools now use cloud hosted services. This section is designed to help you to understand your obligations and help you establish the appropriate policies and procedures when considering switching from locally-hosted services to cloud-hosted services.

What policies and procedures should be put in place for individual users of cloud-based services?

The school is ultimately responsible for the contract with the provider of the system, so check the terms and conditions carefully; below is a list of questions that you may want to consider when selecting a cloud services provider; indeed you may want to contact any potential provider and ask them for responses to each of the following:

- How often is the data backed up?
- Does the service provider have a clear process for you to recover data?
- Who owns the data that you store on the platform?
- How does the service provider protect your privacy?
- Who has access to the data?
- Is personal information shared with anyone else? Look out for opt in/opt out features

- Does the service provider share contact details with third party advertisers? Or serve users with ads?
- What steps does the service provider take to ensure that your information is secure?
- Is encryption used? Is https used as default or is there an option to use this? Two step verification?
- How will your data be protected? Look out for features that will keep your information safe and secure including Anti-spam, Anti-Virus and Anti-malware...
- How reliable is the system? Look out for availability guarantees.
- What level of support is offered as part of the service? Look out for online and telephone support, service guarantees

SWGfL provides a useful summary of these issues in a document that has been written with the support of Google and Microsoft:

<http://www.swgfl.org.uk/products-services/education/Resources/Cloud-Hosted-Services>

The document focusses on Google Apps for Education and Microsoft 365, but poses important considerations if a school is considering services from another provider.

Privacy and Electronic Communications

Schools should be aware that they are subject to the Privacy and Electronic Communications Regulations in the operation of their websites.

Freedom of Information Act

All schools must have a Freedom of Information Policy which sets out how it will deal with FOI requests. In this policy the school should:

- Delegate to the Headteacher day-to-day responsibility for FOIA policy and the provision of advice, guidance, publicity and interpretation of the school's policy
- Consider designating an individual with responsibility for FOIA, to provide a single point of reference, coordinate FOIA and related policies and procedures, take a view on possibly sensitive areas and consider what information and training staff may need
- Consider arrangements for overseeing access to information and delegation to the appropriate governing body
- Proactively publish information with details of how it can be accessed through a Publication Scheme (see Model Publication Scheme below) and review this annually
- Ensure that a well-managed records management and information system exists in order to comply with requests
- Ensure a record of refusals and reasons for refusals is kept, allowing the Academy Trust to review its access policy on an annual basis

Model Publication Scheme

Guidance on the model publication scheme can be found at:

<https://ico.org.uk/for-organisations/guide-to-freedom-of-information/publication-scheme/>

<https://ico.org.uk/media/for-organisations/documents/1235/definition-document-schools-in-england.pdf>

The Schools Model Publication Scheme Template is available from:

https://ico.org.uk/media/1278/schools_england_mps_final.doc

Further Guidance

DfE guidance that is specific to Academies can be found at:

<http://www.education.gov.uk/schools/leadership/typesofschools/academies/open/a00205178/freedom-of-information-guide-for-academies>

Appendix - DfE Guidance on the wording of the Privacy Notice

Dear Parent/Carer,

Use of Pupil Data

It is essential that we ensure the information we hold about you and your child is accurate and up to date in order for us to support pupils at school.

You will find attached to this letter a **Data Collection Sheet** that tells you about the information currently held about you and your child. I would be very grateful if you would:

1. **amend the attached Data Collection Sheet with any information that has changed;**
2. **sign the Data Collection Sheet at the bottom to let us know that you have seen it;**
3. **return the Data Collection Sheet to the school office within two weeks.**

CONFIDENTIALITY: The information that you give us will be maintained on the school's data base to which no unauthorised person has access. The data base will be subject to strict controls to ensure compliance with the Data Protection Act 1998.

We also enclose some important information about the way we use your data and who we share it with. We would be grateful if you would read the **Privacy Notice** (on the other side of this letter), which the government has asked all schools to send to parents.

If you have any problems understanding the enclosed documents or need further help, please contact the school office.

Yours sincerely,

Rebecca Norton
Headteacher

FOURLANESEND PRIVACY NOTICE

Privacy Notice - Data Protection Act 1998

We **Fourlanesend CP School** are a data controller for the purposes of the Data Protection Act. We collect personal information from you and may receive information about you from your previous school and the Learning Records Service. We hold this personal data to:

- Support your learning;
- Monitor and report on your progress;
- Provide appropriate pastoral care, and
- Assess how well we are doing.

Information about you that we hold includes your contact details, national curriculum assessment results, attendance information¹ and personal characteristics such as your ethnic group, any special educational needs you may have and relevant medical information.

We will not give information about you to anyone without your consent unless the law and our policies allow us to.

We are required by law to pass some information about you to our Local Authority (LA) and the Department for Education.

If you want to receive a copy of the information about you that we hold or share, please contact the school office.

If you need more information about how the LA and DfE store and use your information, then please go to the following websites:

¹ Attendance information is **NOT** collected as part of the Censuses for the Department for Education for the following pupils / children - a) in Nursery schools; b) aged under 4 years in Maintained schools; c) in Alternative Provision; and d) in Early Years Settings.

<http://www.cornwall.gov.uk/default.aspx?page=20730> or

<http://www.education.gov.uk/researchandstatistics/datatdatam/b00212337/datause>

If you cannot access these websites, please contact the LA or DfE as follows:

- The Local Authority's Data Protection Officer can be contacted at **Cornwall Council, County Hall, Truro, Cornwall, TR1 3AY**
Website: www.cornwall.gov.uk
Telephone: 0300 1234 101
