

Class Cremyll Summer Term Week 1

Hey Cremyll, how are you all?

Here are a few ideas for this week which are linked to our story 'Elmer' by David McKee.

English

- Design your Elmer's Day elephant and add labels - you could also add a description too.
- Write a character description of Elmer - remember to include adjectives (describing words).

Maths

- Create a pattern and repeat it - you could do this using colour, shape and numbers or even with building bricks.
- Create a symmetrical pattern - you could design butterfly wings that are exactly the same on each side.

Art

- Create a patchwork of different line patterns - you could link this to your English and Maths.

PSHE

- We all know why Elmer is special but he doesn't know why you are special - please write a postcard or letter to Elmer explaining what makes you special.

PE

- Aim to do something physical every day - you could always join in with Joe Wicks each morning at 9am.

Have a great week everyone! Mrs I.
