

Autumn Term  
Science  
Living things and their  
habitats

We went on a habitat hunt in our local environment.

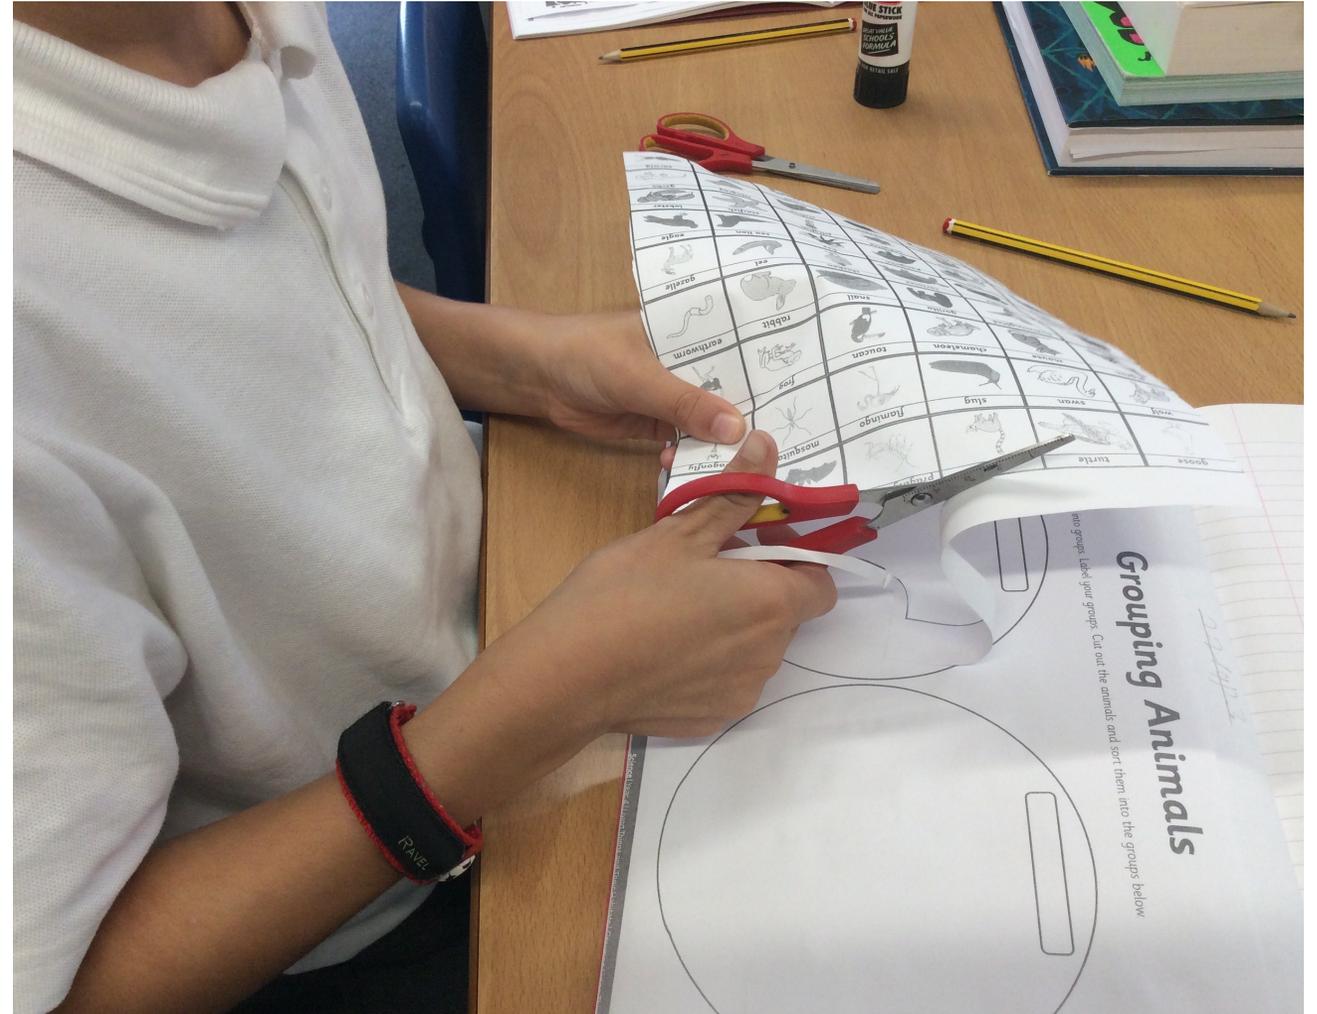

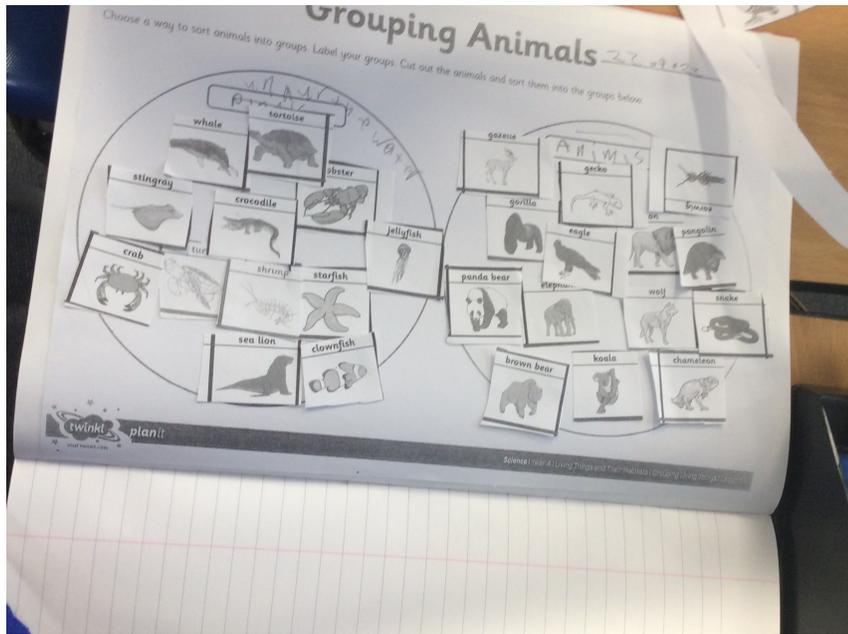

We discovered that animals like different habitat. Woodlice prefer dark damp places.

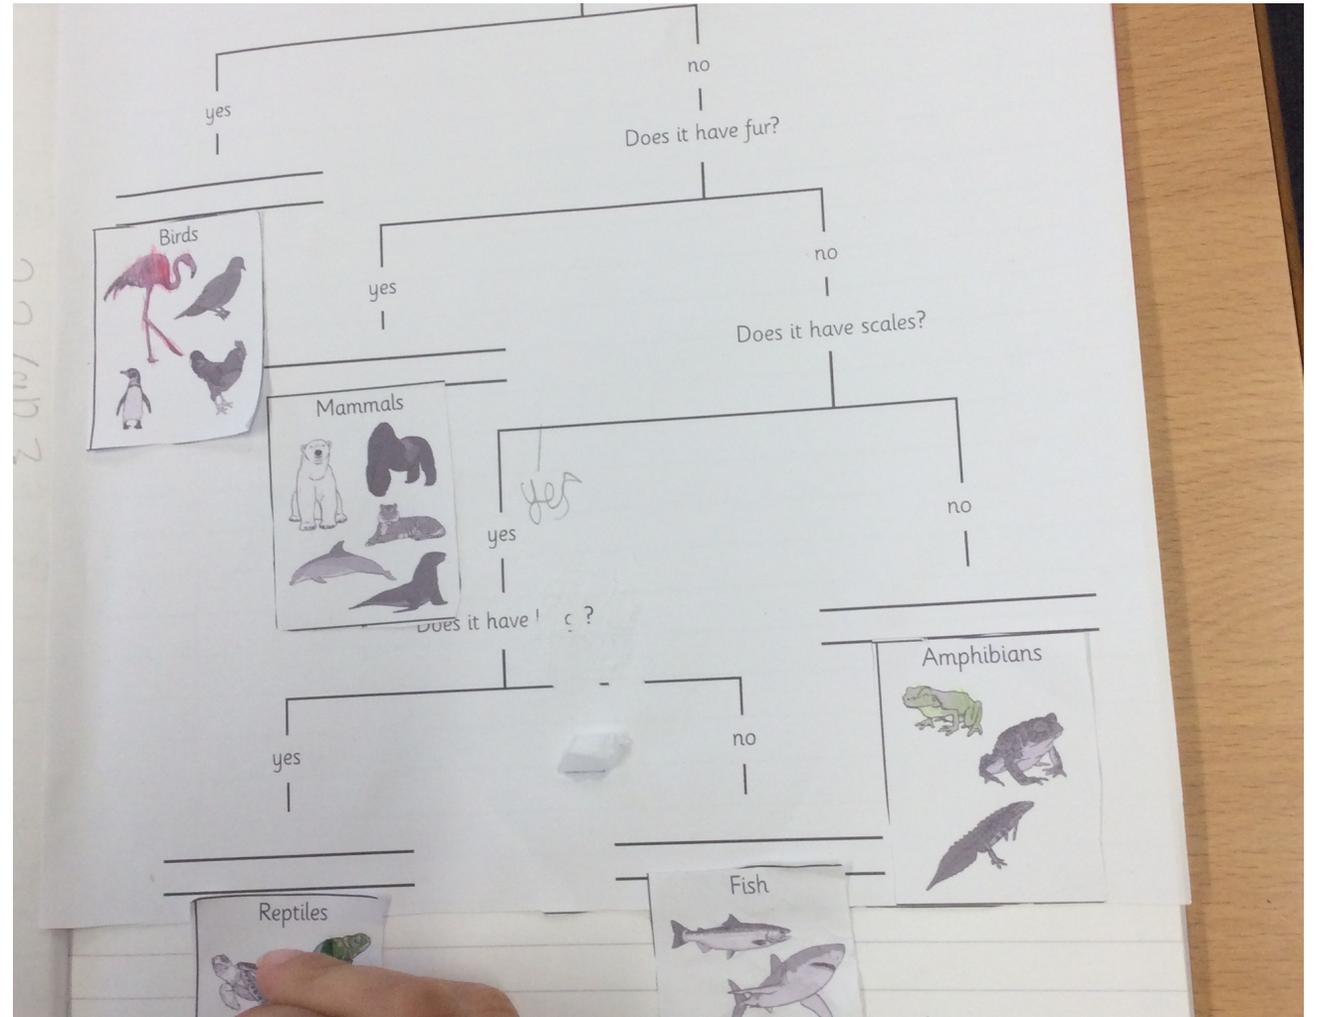

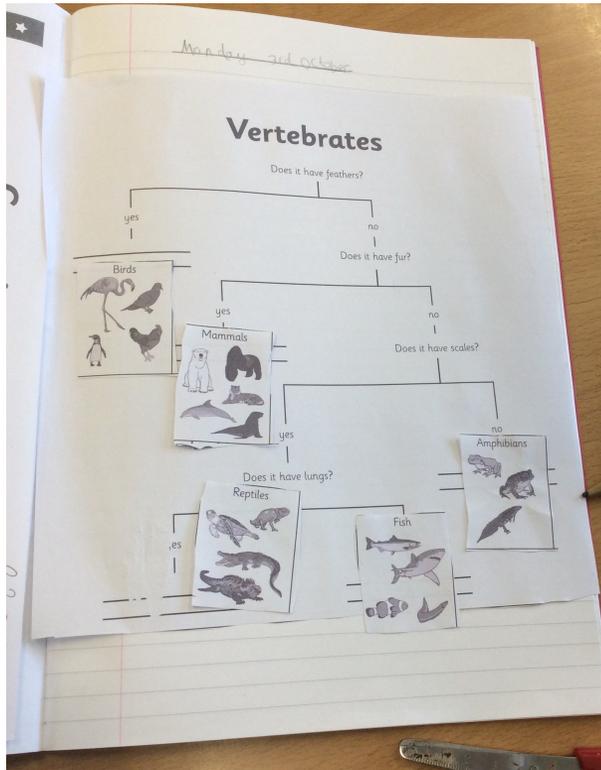

We learnt about MRS GREN and what all living things do.

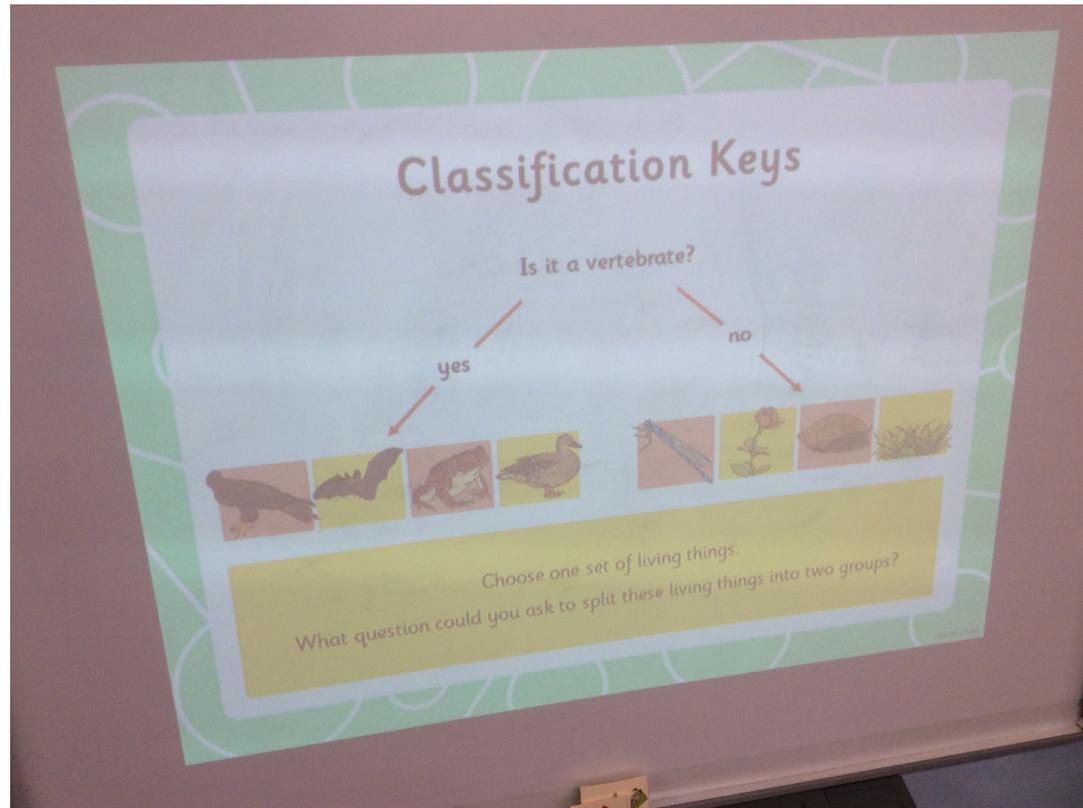

We classified animals according to different characteristics.

We then used a classification key to sort animals by, "Yes" or "No".

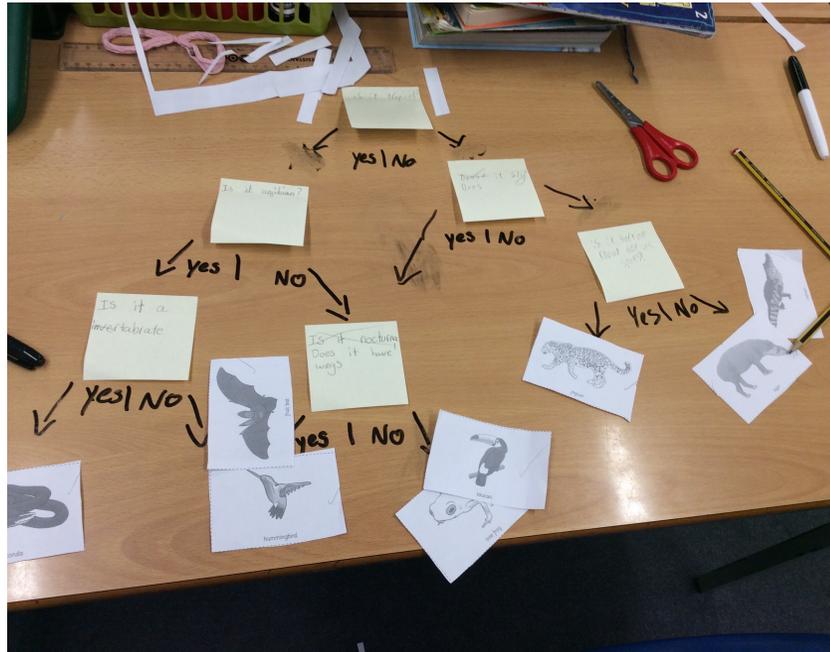

Classification.

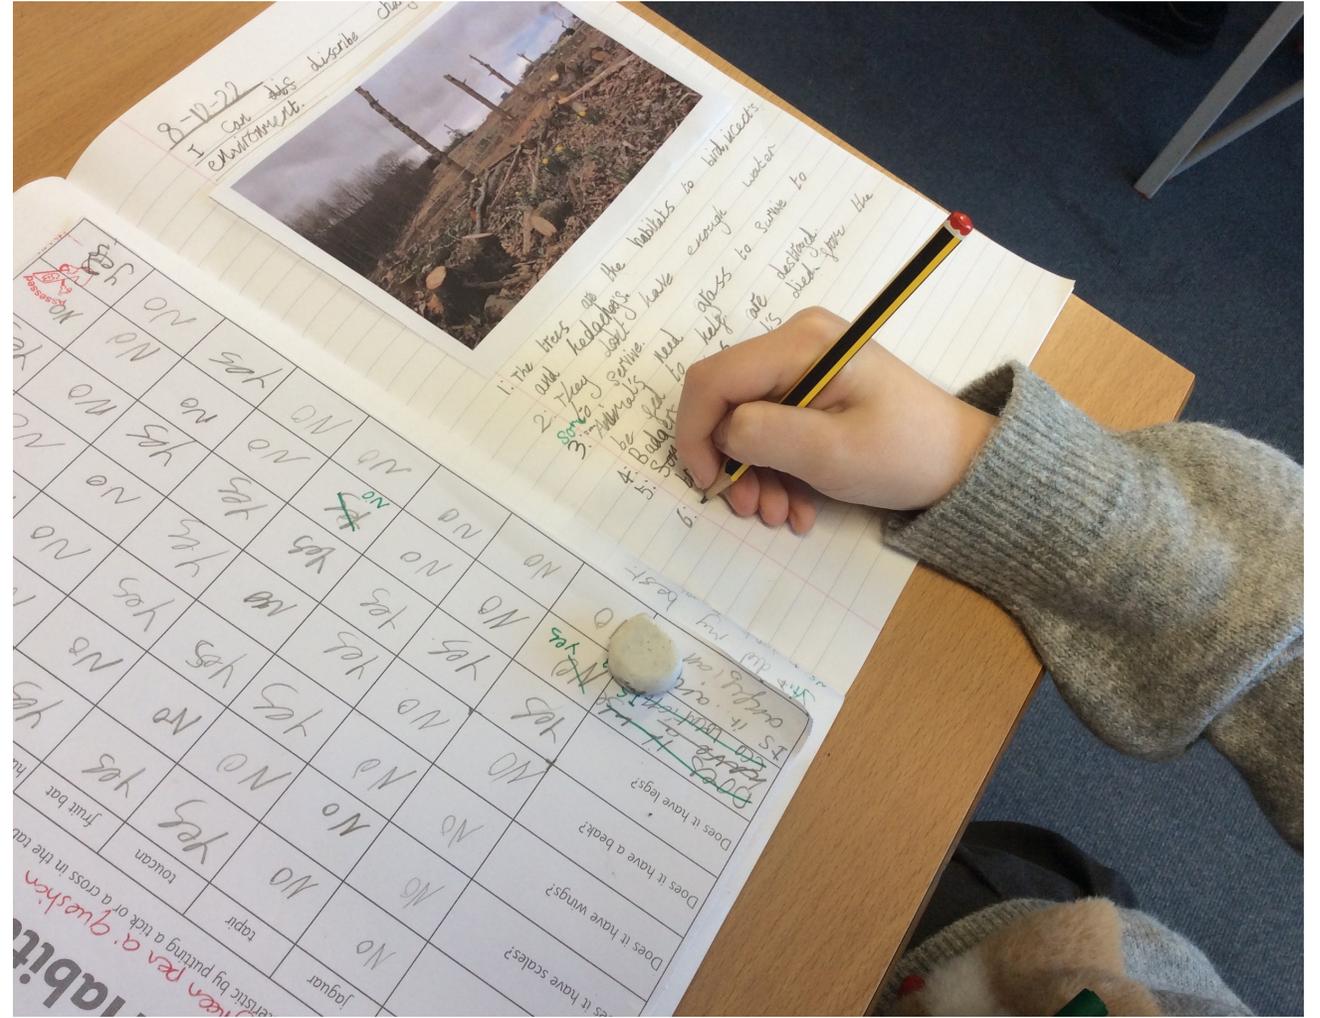

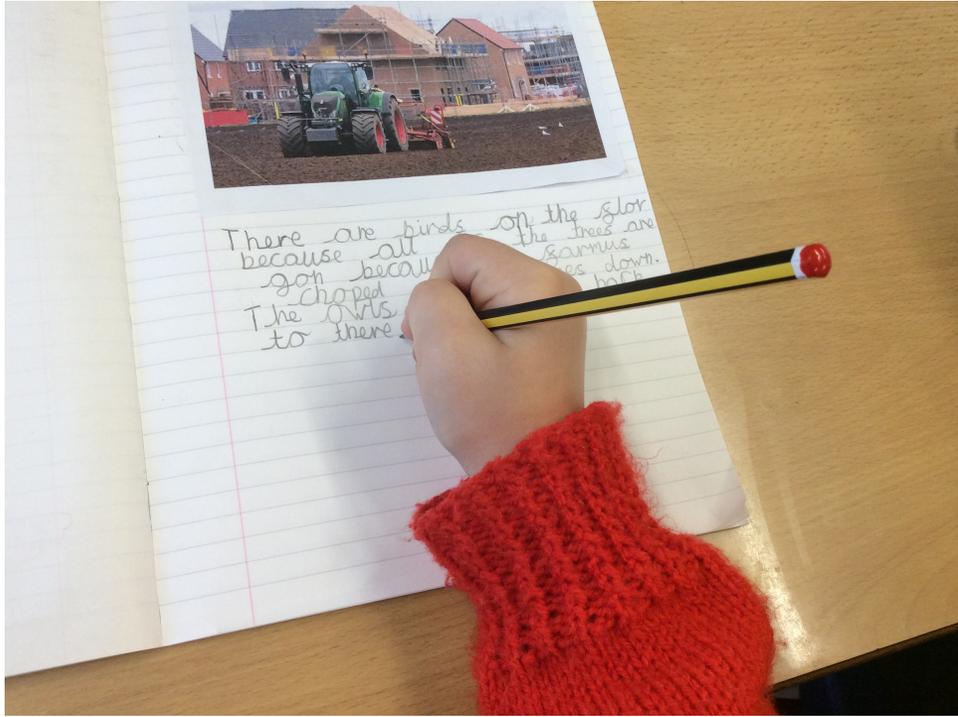

A system of organizing living things.

We created our own classification key.

Environments change,  
often due to people.  
We thought about  
the impact.

**Woodland Habitat Classification**

Record which things are present in each measurement by putting a tick or a cross in the table. Write your own questions in the last two boxes of the table.

	Wetland	Budger	oak	woodpecker	hedgehog	oak tree	ant	fox
Does it have water?	0/0	0/0	0/0	0/0	0/0	0/0	0/0	0/0
Is it a woodland?	0/0	0/0	0/0	0/0	0/0	0/0	0/0	0/0
Does it have a path?	0/0	0/0	0/0	0/0	0/0	0/0	0/0	0/0
Does it have a field?	0/0	0/0	0/0	0/0	0/0	0/0	0/0	0/0

SA 7th Will I have: Does x5 Dose Dose

Thursday 8th December

I can describe changes in the environment.

The birds have raised. The trees are Squashed.

The Wind in the Willows

**Woodland Habitat Classification**

Record which things are present in each measurement by putting a tick or a cross in the table. Write your own questions in the last two boxes of the table.

	Wetland	Budger	oak	woodpecker	hedgehog	oak tree	ant	fox
Does it have water?	0/0	0/0	0/0	0/0	0/0	0/0	0/0	0/0
Is it a woodland?	0/0	0/0	0/0	0/0	0/0	0/0	0/0	0/0
Does it have a path?	0/0	0/0	0/0	0/0	0/0	0/0	0/0	0/0
Does it have a field?	0/0	0/0	0/0	0/0	0/0	0/0	0/0	0/0

SA 7th Will I have: Does x5 Dose Dose

8.12.22

I can describe changes in the environment.

Animals from all over the country have been old because of us. We have been digging down their habitats. We have been cutting down trees and birds, foxes and squirrels. WE HAVE KNOWN THIS! Farms have been destroyed and animals live. I am going to...

**Personal Development**  
 Children make sense of the world around them and the importance of caring for our environment, plants and animals.  
 As an adult, careers could include, rangers, conservationists and scientists.

Skills
Make observations and comparisons.
Categorise observations.
Ask scientific questions.
Recognise the importance of evidence.
Record and present data.

Forever Facts
To stay alive and healthy, all living things need certain conditions.
Changes to an environment can be natural or caused by humans.
Plants and animals rely on the environment to give them everything they need.
Animals can be grouped in lots of different ways based upon their characteristics.
You can use classification keys to help group, identify and name a variety of living things.
Vertebrates can be separated into five broad groups: mammals; fish; birds; reptiles; and, amphibians.
You could sort invertebrates you might see around school in different ways.

**What I have learnt before:**  
 Living things and their habitats (Y2) and animals including humans.

**Exciting Books**

**Our Endpoint**

I can create a poster about environmental dangers.

Subject Specific Vocabulary	
Vertebrate	an animal that has a back bone
Invertebrate	an animal with no back bone
Endangered species	a species that might become extinct.
Environment	the air, water or land where people, animals and plants live.
Habitat	the specific place where an animal or plant might live.
Nutrition	Food which provides energy for living things to live and be healthy.
Organisms	Another word for living things.
Respiration	where plants and animals use oxygen to help turn their food into energy.
Sensitivity	The way living things react to changes in their environment.
