Wildtribe — provided by Arena

Lynher

Autumn 1 2022

Through the Wildtribe program Kayleigh showed us how to select the tools and skills needed for a purpose and use them safely.

# We learnt to work as a team

We need to listen to each other to complete a task.

# We learnt how to light a fire safely and know the elements needed.

The fire triangle needs oxygen, heat and fuel.

We used different  
cutting, sawing or  
chopping skills  
with knives.

You need to make  
the right shape with  
your hand to make  
sure your fingers  
stay safe.

# Leaf Printing

I have used lots of different tools and know how to use them responsibly.
