

Class Cremyll

Dreams and Goals

Spring 1 2024

I know what are my steps to success

We needed to complete a challenge to build the tallest tower

We need to look at the step by step pathway to see how we can achieve our end goal, we realised we cannot just rush to the end point as we may miss steps along the way

We realised that if you make a supportive base our tower will be more stable

To be successful we need to follow the correct steps

It was difficult at first but we learnt which steps worked and which did not

I can challenge myself and work as part of a team to achieve a goal

We had to have to take it in turns and compromise

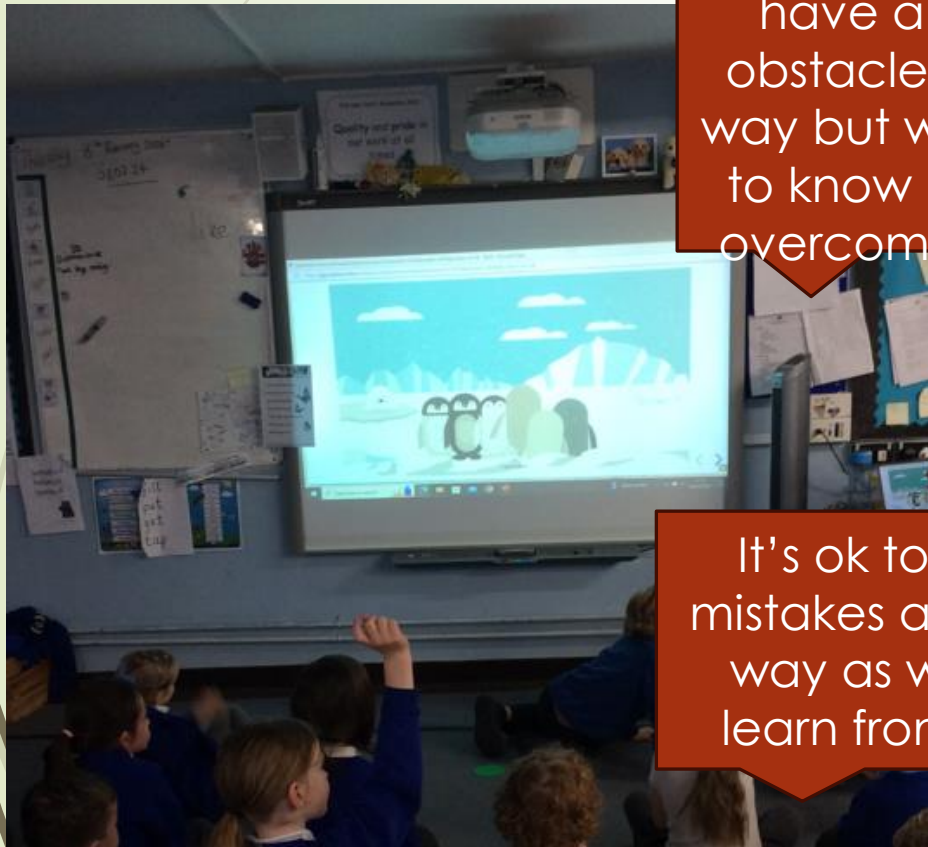

We had to design a welly boot but we needed to agree and work as a team to achieve the goal

Compromise is like agreeing to do something that both people are happy with

I know that to achieve my goal I need to work well with others

We realised that like penguins, we have a lot of obstacles in our way but we need to know how to overcome them

It's ok to make mistakes along the way as we can learn from them

We learnt to persevere and keep going and in the end we achieved our goal
